Motivated front-end developer with a diverse background in art education, conservation, and restoration. After dedicating time to family I've honed my technical skills in HTML, CSS, and JavaScript and various web development frameworks and tools as Wordpress or React. Experienced in creating visually appealing and user-friendly websites, with a strong foundation in graphic and web design using Adobe CC applications, Figma or Procreate. Eager to bring my creative and technical expertise to a dynamic development team.

PROFESSIONAL EXPERIENCE

Stay-At-Home Mom, Freelance Designer & Developer — 2009-present

Dedicated time to family while maintaining and developing graphic design and frontend developer skills. Completed various projects including React-based websites, logo designs, and custom illustrations. Developed a portfolio that demonstrates my ability to combine creative and technical skills effectively.

Front-End Developer Intern, 8Trust, Brussels, Belgium — May-July 2021

Participated in the maintenance and creation of websites using WordPress, Wix, GitHub, CSS, HTML, and JavaScript.

Collaborated with design and development teams to enhance the visual appeal and functionality of web pages using Photoshop, XD, Illustrator.

Utilised version control systems like GitHub for project management and code collaboration.

Arts Teacher, School of Fine Arts, Kraljevo, Serbia — 2006-2008

Taught courses in conservation-restoration, drawing, art theory, and art technology.

Participated in the creation of the annual curriculum and daily activities.

Developed digital resources and online content to support art education.

Conservator - Restorer, Several employers and locations — 2003-2006

Documented and conducted conservation and restoration of wall paintings, easel paintings, and mosaics.
